

VOLODYMYR PESTOV

Senior Frontend Developer

Dear Hiring Manager,

My name is Volodymyr, and I am a Senior Frontend Developer with over six years of experience building high-performance platforms in the fintech sector. I specialize in React, TypeScript, Next.js, and modern state management tools such as Redux and Zustand. I am writing to express my interest in contributing to your engineering team.

KEY ACHIEVEMENTS

- Built a dynamic forms system that reduced product launch time from weeks to hours
- Engineered a real-time trading interface handling 1,000+ price updates per second with less than 50ms latency
- Developed merchant platforms processing 10,000+ daily transactions for over 500 merchants

Beyond frontend expertise, I have practical experience with Next.js, PostgreSQL, MongoDB, WebSocket, and CI/CD pipelines. As a technical leader, I have mentored developers and consistently delivered scalable solutions with measurable business impact.

I focus on creating efficient, user-friendly interfaces that solve real business problems. I would be happy to discuss how my experience can contribute to your team.

Best regards,

Volodymyr Pestov
