CORE SKILLS

Frontend Core

HTML5, CSS3, Sass, JavaScript, TypeScript

Frameworks

React.js, Next.js, React Native

UI Libraries

Tailwind CSS, Material UI, Styled Components

State Management

Redux, MobX, Zustand

Real-Time

SUMMARY

Senior Front-End Developer with 6+ years building high-performance fintech platforms processing 10K+ daily transactions. I architect scalable React/TypeScript solutions that deliver measurable business impact — from a no-code form system that reduced product launch time from weeks to hours, to real-time trading interfaces with <50ms latency. Proven technical leader with mentoring experience and a track record of scaling applications 3x while maintaining code quality.

PROFESSIONAL EXPERIENCE

Ukrpay Jan 2023 - Present

Senior Front-End Developer → Tech Lead (Frontend)

OshchadPAY Online Merchant Dashboard

React, TypeScript, Redux, Material UI

- Architected merchant management platform for 500+ merchants processing 10K+ daily transactions
- Created reusable component library, reducing feature development time by 40%
- Optimized bundle with code-splitting, improving initial load by 35%

Impact: Dashboard scaled 3x with zero architecture rewrites

Dynamic Forms System (Full Project Ownership)

React, TypeScript, Custom Form Engine, JSON Schema

- Built no-code form builder with 30+ field types, conditional logic, and validation rules
- Designed JSON schema system with version control and real-time preview
- Optimized rendering for 100+ field forms using React virtualization

Impact: Eliminated developer dependency, reducing product launch from weeks to hours

Credit Factory Platform

React, TypeScript, Zustand, Express

- Developed loan management system with workflow orchestration
- Built reporting module with Excel/PDF export and granular RBAC

Impact: Reduced manual data entry by 60% via automated synchronization

Atlana Mar 2022 - Oct 2022

Front-End Developer

WebSocket, REST API, GraphQL

Tools

Git, Jest, Webpack, Vite

FAMILIAR WITH

Backend

Node.js, Express, NestJS

Databases

PostgreSQL, MongoDB

LANGUAGES

Ukrainian	Native
Russian	Native
English	Professional
Polish	Intermediate
French	Basic

EDUCATION

2004 - 2009

Yuriy Fedkovych Chernivtsi National University

Bachelor's in Applied Mathematics

CERTIFICATIONS

2019 - 2024

freeCodeCamp.org

Responsive Web Design, JavaScript Algorithms, Front End Libraries

Real Estate Listing Platform

React, TypeScript, Next.js, Tailwind CSS

- Developed property search with Mapbox integration and advanced filtering
- Created SEO-optimized pages using Next.js SSG/ISR
- Built lazy-loading image galleries with WebP optimization
- Achieved 95+ Lighthouse scores across all metrics

Impact: Reduced page load time by 50%

Impltech

Mar 2021 - Feb 2022

Front-End Developer

Real-Time Stock Trading Interface

React, TypeScript, WebSocket, Redux

- Built trading interface streaming 50+ symbols with <50ms UI latency
- Implemented WebSocket with auto-reconnection and data buffering
- Created real-time order book with optimized React rendering
- Mentored** 2 junior developers on WebSocket and performance patterns

Impact: Handled 1000+ price updates/second during peak trading

Freelance

Sep 2020 - Mar 2021

Front-End Developer

- Delivered 5+ React projects from landing pages to full web apps
- Created reusable templates, reducing project kickoff by 30%

KEY COMPETENCIES

Architecture & Design

- Micro-frontend architecture
- Component-driven development
- State management patterns
- RESTful and GraphQL API design

Performance Optimization

- Code splitting and lazy loading
- React rendering optimization
- Bundle size reduction
- WebSocket real-time optimization

Leadership & Collaboration

- Technical decision-making
- Code review and quality assurance
- Mentoring developers
- Cross-functional collaboration

Development Practices

- Test-driven development
- CI/CD implementation
- Agile methodologies
- Documentation standards
